

**REMARKS:**

As the examiner can see, applicant has at this time elected to pursue claims 3-4, that is, the group II invention.

In the event that the generic claim is not held to be allowable, applicant elects chronic renal failure as the PPAR $\alpha$ -related disease to fulfill the requirement for species election.

The cancellation of some claims is done without prejudice and applicant reserves the right to pursue these or similar claims in one or more continuing, continuation-in-part, and/or divisional applications.

In view of the foregoing, further and more favorable consideration is respectfully requested.

Respectfully submitted

Peter Zahradka et al.
